

# How to Find Vital Property Information to Evaluate a Purchase

When making a decision to either buy or pass on a property, having accurate information is paramount. Where to find trusted information can sometimes be a challenge.

When gathering property information you can and should go to places like Realtor.com, Zillow.com, and trulia.com. However, there is an overlooked source of information I find very valuable which is located at each County's Real Property Website.

## Here is the type of information you can find on the County's website:

1. School, Village/City, Town and County Property Taxes
2. Lot Size
3. History of Past Sold Prices
4. Assessed Value
5. Property Owner Name and Address
6. Property Description, Square Footage and More

## Website Links for the Central N.Y. Real Property Tax Sites:
